

# Family Law Mediation Services

At Murdoch Mediations, we guide clients through each stage of the mediation process to reach the best possible solutions for the whole family. We facilitate mediation for parenting matters, property matters, and parenting and property matters combined.

## Family Law disputes don't have to be costly or time-consuming

Australia's family law court system can be costly and time-consuming for both parties, not to mention the impact such drawn out proceedings has on any children involved. In contrast, mediation offers a neutral venue where the parties can work together to resolve disputes respectfully.

The mediation process empowers the parties to reach an amicable agreement and create their own mutually satisfactory solutions with the assistance of expert facilitators. One of the main benefits of mediation is early resolution of disputes that benefit the children and both parties.

## How we can help

With offices located in both Brisbane and Toowoomba we have the capability to facilitate mediation at our office locations, as well as online throughout Queensland, New South Wales and the Northern Territory.

We offer:

1. Full day mediation
2. Half-day mediation (upon request, excluding FDR).
